AREAS OF PRACTICE:

The Tatum Law Firm works diligently to help victims of another person's carelessness or wrongdoing get the compensation that they deserve. If you or someone you know has been injured in an accident, you may be entitled to reimbursement for your damages. The decision to litigate or to settle is an important business decision, and we are dedicated to negotiating quick settlements or in litigating matters to the full extent required in order to obtain the client's desired result.

Legal Malpractice

We provide services to those who have been injured because their attorney failed to adhere to a certain level of professionalism, meaning the attorney made an error that no reasonable attorney would have made. We are committed to handling your claim because we understand the importance of helping victims of attorney malpractice recover the monetary compensation they deserve.

Medical Malpractice

We represent patients who have been affected by careless acts or omission by medical professionals who were trusted to care for them. You deserve a doctor who listens to you, diagnoses you correctly, and is vigilant about any changes they observe or are informed about. Our expertise kicks in when medical professionals don't give you that level of care and you are injured as a result.

Personal Injury

Personal injury refers to harm caused to an individual's body, mind, or emotional state. If you or someone you know has been injured in an accident, you may be entitled to reimbursement for your damages. The decision to litigate or to settle is an important business decision, and we are dedicated to negotiating quick settlements or in litigating matters to the full extent required in order to obtain the client's desired result.

Nursing Home Negligence

We offer compassion and respect for the victims and their families of those elders who have been neglected or abused by the staff of a nursing home. We understand this is a sensitive matter, and we are committed to helping victims stand up for their rights and hold those wrongdoers accountable for their acts.

Products Liability

We zealously represent those who have been injured by a dangerous or defective product, whether the injury resulted from automobiles, food, beverages, building materials, medical devices, and many more. We have extensive knowledge in litigating against those who design, manufactured, sold, or even furnished the unsafe product.

Truck Accidents

We are always ready to fight for the rights of our clients who have been injured in a truck accident. Based on the sheer size of the vehicle, truck wrecks can be particularly devastating and we will work diligently to help you seek the compensation that you deserve.

Workplace Accidents

We provide services for those who have been injured or fallen sick at work. Workers' compensation laws can be complex, but with our expertise and knowledge of the state regulations, we can get the process started timely so that you can begin receiving your compensation without any delays.

Car Accidents

We represent those clients who have been injured due to the carelessness of someone else. We are committed to seeking just compensation for the harm that our clients have suffered; this includes both personal injury and property damage. Car wrecks can cause serious physical and emotional trauma, but Tatum Law Firm will be there to help you from beginning to end.

Real Estate

We represent a number of clients in all aspects of commercial and residential real estate. This includes providing legal services to buyers, builders, developers, agents, lenders, and mortgage brokers. We work closely with our clients in title and recoupment issues, landlord/tenant disputes, lease disputes, and condemnation defense cases. Our firm has extensive knowledge in all aspects of real estate law in both North Carolina and South Carolina.

FOUNDING PARTNER

Brian S. Tatum
